

2026 Custom Beef Pricing

Wittman Farms • Lapwai, ID • wittmanfarms.com

Thank you for your interest in Wittman Farms beef! We sell beef on the hoof (live) and connect you with a local processing facility to handle your processing preferences.

How It Works

- Add your name to the list for a ¼, ½, or full beef when an animal becomes available.
- Commit with a deposit: **\$250 (quarter) • \$500 (half) • \$1,000 (full)**. We'll provide an estimated timeframe based on processing availability.
- The processor will contact you to confirm cut preferences once butchered.
- You pay the processor directly for cut and wrap fees, and pay Wittman Farms separately for the beef based on hanging weight.
- You are responsible for arranging pickup of your beef from the processor.

How Much Beef Will I Get?

- Hanging weight is **typically 60–65% of live weight** — the weight after initial slaughter, provided by the butcher.
- Final take-home weight is **roughly 60–70% of hanging weight**, depending on your cut preferences (bone-in cuts yield more total weight).
- Example: A 1,200-lb animal → ~720-lb hanging weight → ~432 lbs of processed beef. A half yields ~216 lbs; a quarter yields ~108 lbs.
- Freezer space needed: ~14-15 cu. ft for a whole beef, ~7-8 cu. ft for a half, ~4 cu. ft for a quarter.

2026 Estimated Pricing

Estimates below are for illustration purposes. Actual costs vary by animal and processing preferences. Prices are reviewed annually and reflect market changes.

		Whole Beef			Half Beef			Quarter Beef
